

ORGANIZATION AND ADMINISTRATION

The sole membership of the Corporation of Black Mountain College consists of the whole body of the Faculty as provided by the Certificate of Incorporation and as defined in the By-Laws. The Faculty, therefore, owns all College property and is responsible for the control of all College affairs.

The governing body of the Corporation, except as to matters of educational policy and student discipline, is a Board of Fellows elected by the Faculty. The Board of Fellows makes appointments, after consultation with the Faculty, and handles all financial affairs.

All matters pertaining to educational policy and of student discipline are reposed in the Faculty. The Faculty, however, may establish, appoint and act through such committees as deal with its special functions.

A Community Council, established by the Faculty and composed of representatives of the Faculty, the Student Body and the Community at large, is empowered to deal with specified matters relating to the welfare and harmonious functioning of the total community.
